

student job, project thesis, internship

Development of AI solutions with Python (m/f/d)

Are you enthusiastic about artificial intelligence, large language models (LLMs) such as ChatGPT and want to gain practical experience?

At IPH - Institut für Integrierte Produktion Hannover gemeinnützige GmbH, we offer you the opportunity to expand your knowledge as part of an internship, student research project or part-time job (HiWi jobs) and take on exciting tasks in the development of AI solutions!

Your tasks

- Support in the development and implementation of AI-supported solutions with Python
- Work on innovative projects in the area of Large Language Models (LLMs) such as ChatGPT, especially Retrieval Augmented Generation (RAG)
- Collaboration with our research team for continuous improvement and optimization of AI solutions

Your profile

You are studying one of the following subjects:

- (Business) Informatics
- (Business) Engineering
- Mathematics
- or a comparable course of study

You are interested in artificial intelligence (AI) and large language models (LLMs) such as ChatGPT.

You also have knowledge of programming with Python.

Good written and spoken German and English skills are necessary for the job.

We offer

- appropriate salary for student job
- independent work
- flexible working hours
- Home office by arrangement
- possibly long-term cooperation

Bitte sende deine aussagekräftige Bewerbung in einer einzigen PDF-Datei an jobs@iph-hannover.de.

Die Bewerbung muss Anschreiben, Lebenslauf sowie Prüfungsleistungen des Studiums / Zeugnisse enthalten.
